DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In line 17 applicant claims the conductor switch to be "respectively" connected to a first one of the power input terminals, this term is considered to be indefinite since "respectively " suggest that there is a second end of the conductor switch connected to the first power input terminal or the power switch connected to a second power terminal as well as a first power input terminal, which is not claimed. In line 18, applicant claims the driving circuit is connected to both a resistor and a light-emitting device. This recitation is considered to be indefinite since applicant has previously mentioned a first and second resistor and it is unclear which resistor the driving circuit is connected to.

Allowable Subject Matter

3. Claims 1-2 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. Claims 3-5 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter: The reasons can be found in the previous office action.
